Connectivity

Connect your Latte Art Factory to the internet to benefit from services such as remote assistance and access to our analytics portal.

LAN

All modules have built-in LAN connectivity by default and can be connected via a standard LAN cable.

Standard LAN cable

GSM

If LAN is not available, then you can connect your module via GSM. You can purchase the recommended GSM modem directly from Latte Art Factory in selected countries (requires SIM).

Professional LTE router available to purchase

WiFi

WiFi is not recommended due to various factors that can affect connectivity. If this is your preferred method, you may source it locally.

Wifi router, recommendation available upon request

Recommended set-up

LAF Classic – Standard fridge with 3.7l container or 2x small containers (1.7L each)

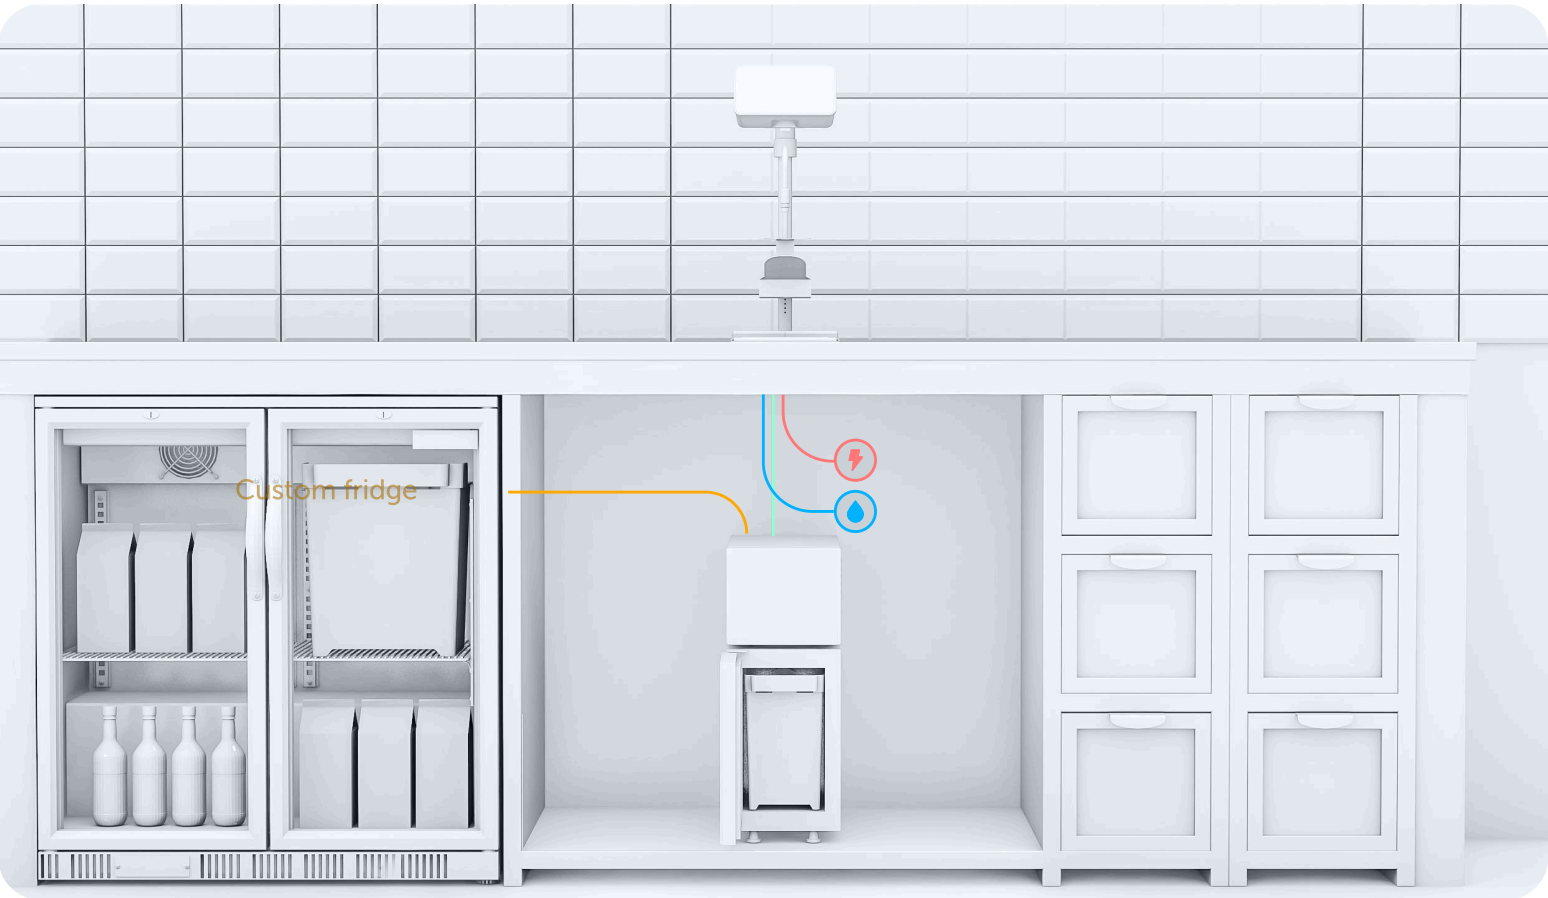

LAF Classic – Extra fridge setup: Either 2 x 3.7L containers or 2 x small containers (1.7L each, totaling 3.4L)

LAF Bar – Standard fridge setup: a 3.7L container or single LAF fridge with 2 small containers

LAF Bar – Extra fridge setup: 2x 3.7l container or 2x small containers (1.7L each)

LAF Bar – Custom setup: 3.7l container + custom fridge
